What are solar powered water pumps?

Solar powered water pumps are efficient water pump systems that are powered by the energy collected by solar panels.

Which solar water pump is best for your garden?

Decorate your garden with a big water fountain by using the AEO-WP50DSP25-KIT. This solar water pump is ideal for a large garden pond or a large water feature. The fountain it can create is strong and consistent depending on the exposure to sunlight. Create small waterfalls that are natural looking right in your own backyard.

Where can I buy a solar pond pump?

Get the Poposoap solar-powered pond pump at Amazon or Poposoap. The Aisitin solar fountain pump is as simple as it gets--just drop it in the water, and as long as there's sunlight, it will start spraying instantly. It's a fun, no-fuss option for adding a little movement to a pond, birdbath, or small water feature.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.
