Malta is a long-duration energy storage company that builds grid-scale energy storage solutions to convert variable renewable energy into on-demand, around-the-clock, reliable power.

SunContainer Innovations - With sunlight available 3,000+ hours annually, Malta is a prime location for solar energy adoption. However, the island's limited grid infrastructure and rising ...

Completed in 2021 against all odds (think: pandemic shipping chaos and Christmas holidays), this battery system became Malta's first grid-connected storage facility.

Using new technologies developed by Siemens Energy and Alfa Laval, the Malta plant is a like-for-like replacement for natural gas-powered plants, allowing solar and wind to ...

Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver dispatchable, cost-effective energy.

In the last few years, we've advanced installing short-duration storage to support the generation of renewable energy, but we still need to develop ...

Malta's premier solar battery solution for complete home energy independence. Highest-rated efficiency, longest warranty, and unmatched reliability for Maltese homes and businesses.

In the last few years, we've advanced installing short-duration storage to support the generation of renewable energy, but we still need to develop long-duration storage technologies.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...
