The Jordan Renewable Energy and Energy Efficiency Law (13) year 2012, was the starting point in the journey towards changing the energy mix in Jordan. Gigantic.

For factories and farms, mobile solar containers have become a lifeline. But here's the kicker: Jordan's Ministry of Energy offers 40% subsidy on these systems through 2025.

Let's be real - when you think of cutting-edge energy projects, Jordan might not be the first country that pops into your head. But hold onto your solar panels, because this ...

Experts emphasized that the BESS project will provide essential frequency regulation, peak shaving capabilities, and voltage support services to accommodate the country's growing ...

Nestled in Jordan's capital city, the Amman Energy Storage Power Station operates in the Al-Qatrana district, approximately 90 kilometers south of downtown Amman.

A solar farm in Jordan is poised to be equipped with the largest storage battery in the Middle East. At 12 MWh and 4 MWac, the lithium-ion battery being installed by Al Badiya at a 12 MW solar ...

Implementing projects for grid services provided by the Li-ion storage. This work explores the technical possibilities of increasing the efficiency of a standard solar chimney ...

This project includes an expansion of 11 MWp which consists of approximately 34,350 of Philadelphia Solar PV panels (320 Wp each), tracking system which is locally made by ...

Implementing projects for grid services provided by the Li-ion storage. This work explores the technical possibilities of increasing the ...

Jordan is partnering with Higherwire on a pilot project to use remanufactured lithium batteries for solar panel energy storage to power lighting in South Mountain Park.
