What factors affect the glass industry in France?

When exploring the glass industry in France, several key considerations emerge. The regulatory environment is significant, as the industry adheres to strict EU regulations concerning safety, quality, and environmental impact.

Who are AGC Glass Europe & Rosi?

Saint Honoré, September 13, 2024 - AGC Glass Europe, part of the global AGC Group and a global leader in flat glass manufacturing, and ROSI, a frontrunner in the recovery and recycling of high-value raw materials from the photovoltaic industry, have entered into a strategic partnership agreement.

What is AGC Glass Europe?

AGC Glass Europe produces, processes and markets flat glass for the construction industry (external glazing and interior decoration), car manufacture and other industrial sectors (transport, solar power and high-tech). It is the European branch of AGC, a world leader in flat glass.

How is LandGlass transforming the glass industry?

LandGlass, in collaboration with Allia Verre, is transforming the glass industry by designing and distributing innovative glass products that emphasize performance and sustainability. Their AV ELIA technology significantly enhances thermal insulation, reducing energy consumption and promoting environmental preservation.

With extensive experience and automated production processes, the company produces various glass items, including pressed glass and aspherical lenses, serving diverse industries and ...

Anthelys, based in Lyon (France) specializes in innovative technologies for eco construction and building materials.

With solar panels consisting of 70% glass, end of life panels have the potential to become a major component in the glass supply chain. Through this collaboration, AGC Glass ...

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, glass coating, glass processing as well as high ...
