The Noor II and III Concentrated Solar Power Plants of Ourzazate signal progress in Morocco's commitment to increase its share of renewable energy generation from its current rate of 28 ...

It maps the Moroccan energy sector, including the energy mix, key stakeholders, and the policy and legislative framework governing ...

It maps the Moroccan energy sector, including the energy mix, key stakeholders, and the policy and legislative framework governing renewable energy generation, more ...

Morocco is intensifying investment in solar power in the hope of hitting a target to raise the use of renewables in its energy mix to more ...

The world's attention is currently focused on the energy transition to sustainable energy.

OverviewRenewable energy transformationLargest solar power plantsSee alsoSolar power in Morocco is enabled by the country having one of the highest rates of solar insolation among other countries-- about 3,000 hours per year of sunshine but up to 3,600 hours in the desert. Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 202...

A new report by SolarPower Europe, backed by the Global Solar Council and Morocco's Cluster EnR, lays out bold projections for Morocco's solar energy capacity.
