Tools Needed For Installing Solar Water Pumps  
Setting Up The Solar Panels  
Wiring Your Solar Pump  
Mounting The Solar Water Pump  
FAQs  
After connecting the solar water pump to the controller, connect a long pipe to the pump. Then you may connect that pipe to a storage tank or use it to pump water directly to wherever you need it. The way you'll mount your solar-powered water pump largely depends on the type of pump. If it's a submersible pump, you'll have to place it in a well in ...
