Why should you choose a power supply company in Sweden?

They provide comprehensive project management services and ensure quality testing, making them a reliable partner for power supply solutions. In Sweden, the power supply industry is characterized by a strong focus on sustainability and renewable energy sources.

What is a static uninterruptible power supply (UPS)?

Our static uninterruptible power supply (UPS) systems comply with the VFI-SS-11 classification according to IEC 62040-3. With their robust industrial design, they support a secure consumer supply in continuous operation.

Does Sweden have a sustainable power supply industry?

In Sweden, the power supply industry is characterized by a strong focus on sustainability and renewable energy sources. The country aims to transition to a carbon-neutral economy by 2045, making it essential for companies in this sector to align with environmental regulations and government policies promoting green energy.
