Why did DTEK launch the largest battery storage facility in Eastern Europe?

(Bohdan Nazarenko/DTEK) - Kyiv Independent DTEK has launched the largest battery storage facility in eastern Europe to bolster Ukraine's energy system ahead of expected mass Russian attacks on infrastructure this winter, the Ukrainian energy giant announced on Sept. 10.

Why are Ukraine's energy facilities being destroyed?

Ukraine's energy facilities have faced a campaign of destruction since the start of Russia's full-scale invasion, with the attacks intensifying in October 2025.

Does EBRD support Ukraine's energy security?

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the financing of new peaking generation capacity and battery energy storage systems (BESS).

How long does it take to build a thermal power plant in Ukraine?

Constructions of this size normally take 12-15 months, but DTEK noted Ukraine's urgency for the project to commence before the autumn-winter season. The country is bracing for another wave of Russian attacks, with a recent strike on a thermal power plant in Kyiv Oblast cutting off electricity to part of the region on Sept. 8.

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's ...

Atlas Copco has launched its largest container energy storage system (ESS) in the prime power market - the ZBC 1000-1200 - which delivers 1MW of power output and 1.2MWh ...

Ukraine's energy facilities have faced a campaign of destruction since the start of Russia's full-scale invasion, with the attacks ...

In the spring of 2025, Ukraine's energy sector finds itself at a crossroads. Underneath the constant hum of reconstruction and the lingering threat of war, a quiet ...

1 MW of power packed into a compact container, the ZBC 1000-1200 is the largest battery pack in our container range of energy storage systems. It demonstrates plug and play capabilities and ...
