Estimate Total Energy Use & Become as Efficient as Possible
Determine Solar Viability Before Construction
How to Choose A Solar Electric System For New-Build Homes
Join Forces with Solar Installation Companies
Connect New Home Buyers with Solar Financing Resources
Balance Architectural Aesthetics with Solar Performance
When it comes to solar power, there is no one-size-fits-all solution. The best type of solar electric system will depend on several factors, including the location, the orientation of each home, and the amount of sun exposure the property receives. In general, however, there are three main types of solar electric systems: grid-integrated, off-grid,...
