Is Kiribati launching a solar PV project?

The Oceania located nation of Kiribati has started construction on the country's largest solar PV project that's backed by the Asian Development Bank and the Government of New Zealand. It will be accompanied by a battery energy storage system (BESS). The 7.5 MW South Tarawa Renewable Energy Project (STREP) is located on the Bonriki water reserve.

Who financed the South Tarawa water supply project?

Supported by the bank and co-financed by the Kiwi government, the project's solar and BESS components were procured under the ADB's South Tarawa Water Supply Project co-financed by the World Bank and the Green Climate Fund.

Why should you choose SunTrek for solar panel removal & reinstallation?

Choosing the right company for solar panel removal and reinstallation is crucial to maintaining your system's performance. SunTrek stands out as a reliable and professional service provider with years of experience and a dedication to customer satisfaction.

Why do you need a solar panel removal & reinstallation service?

Proper removal and reinstallation are vital to ensure your solar system remains efficient and intact during renovations, upgrades, or relocations. At SunTrek, we provide professional solar panel removal and reinstallation services.
