Does Canberra have battery storage?

Battery storage for residential solar energy is becoming increasingly popular in Australia - including in Canberra, ACT. If you're a Canberra resident looking to install a battery storage system for your home, what are the main things that you need to consider?

Where can I find more information about the Big Canberra battery?

More information about the Big Canberra Battery is available on the Everyday Climate Choices website. The ACT Government's partnership with Eku Energy to develop a grid-scale battery at Williamsdale is a significant step in the delivery of the Big Canberra Battery ecosystem.

What does the Big Canberra battery mean for Eku energy?

The Big Canberra Battery represents a significant milestone for Eku Energy as we celebrate our first GWh of battery energy storage in delivery in Australia. This brings our global portfolio of battery energy storage assets to over 4GWh.

What is the Big Canberra battery project?

Installation is underway on behind-the-meter batteries at nine sites. The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes the installation of: installation of behind-the-meter batteries at nine government sites.

Naturgy has successfully connected its first battery storage facility in the world to the grid, a historical milestone for the company in the renewables business.

Macquarie Group's new global battery storage arm Eku Energy has been chosen by the ACT government to future-proof Canberra's power supply. ...

Energy storage specialist Eku Energy has announced the financial close for its Williamsdale Battery Energy Storage System (BESS), located in the ...

From powering EVs to stabilizing solar grids, Canberra's lithium battery factories combine environmental responsibility with technical excellence. As energy storage needs grow ...
