Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

What types of battery cabinets are available?

Tariff Relief. Up to 10% Protection. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

Why do you need a UPS battery cabinet?

UPS battery cabinets also help balance power consumption by providing stored energy during peak demand periods, reducing strain on both the UPS and the electrical grid. Together, a UPS and its connected battery cabinet form a reliable, high-performance power protection system for industrial and commercial applications.

Our team can assist you in identifying the correct cabinet model, battery type, and configuration to ensure reliable integration with your UPS system and long-term performance for your facility.
