What are the new energy storage rules in Poland?

Poland's new rules state that energy storage facilities over 10MW require licensing to ensure they can provide services to Poland's National Power System. Facilities 10MW or smaller do not need licensing but do need to register with the transmission system operator or distribution system operator for their area.

Does Poland have a new energy storage subsidy programme?

The energy storage sector in Poland showed significant momentum even before the launch of this new subsidy programme. Through power market auctions for 2021-2028 and supplementary auctions for 2021-2025, contracts for energy storage with a total capacity of 9.5 GW were already wrapped up.

How much power does a project need in Poland?

Eligible projects must have a capacity of at least 2 MW/4 MWh, connected to the distribution and transmission network at all voltage levels. The scheme has been brewing since 2024, with the final regulation published in the Journal of Laws of the Republic of Poland in March this year.

Battery energy storage systems (BESS) will soak up surplus electricity during high production periods and release it when generation ...

Whether it be residential energy storage (RES) or commercial and industrial energy storage (CIES), market demand in Poland is skyrocketing. This article will analyze ...

Battery energy storage systems (BESS) will soak up surplus electricity during high production periods and release it when generation dips, providing essential grid stabilisation ...

This article explores the growing role of independent energy storage power stations in the region, their applications, and how they align with Poland's renewable energy goals. Whether you're ...

Poland's energy storage landscape has become a battleground between ambitious climate targets and practical grid economics. With 9GW of battery projects already permitted but only 10MW ...

"The right storage solution acts like an energy Swiss Army knife - versatile, reliable, and always ready when needed." From initial consultation to ongoing support, we handle every detail.
