Will Germany's 20-year guaranteed price boost renewables expansion?

The 20-year guaranteed price for solar, wind and biogas energy producers selling their power into the grid has boosted Germany's renewables expansion as Berlin aims to cover 80% of its electricity needs with renewable energy by 2030.

What changes have been made to BESS projects in Germany?

The German legal framework for BESS projects is currently also in a process of changes: The German parliament adopted a comprehensive energy reform package on 31 January 2025, which includes relevant changes for BESS projects with the aim to further support the growth of storage capacities in Germany.

Is German battery storage a good investment?

German Battery Storage on a Rise... High and further increasing volatility of power prices due to the expansion of renewables on the one hand and significantly decreasing prices for battery cells in recent years on the other hand have led to a highly attractive market environment for battery storage (BESS) projects in Germany.

Would a shift to investment subsidies change Germany's renewables market?

A shift to investment subsidies would mark a significant change in Germany's renewables market and would seek to make the industry less dependent on government support. The Reuters Power Up newsletter provides everything you need to know about the global energy industry. Sign up here.

For this operational model, the energy reform package includes relevant changes to Section 19 EEG with the aim to further ...

Germany is entering a new phase in its energy transition, with onshore wind repowering projects playing a decisive role in the country's push to expand renewable capacity.

For this operational model, the energy reform package includes relevant changes to Section 19 EEG with the aim to further optimize the flexible usage options of BESS project.

Germany's coalition government is set to overhaul the way renewable energy is subsidised so that power producers would get one ...

Ensuring "acceleration zones," wind and solar PV parks, and energy storage projects, Germany's federal
