NamPower is currently developing the Rosh Pinah 100MW and Omburu 80MW Solar PV Project to be connected at Obib Substation near ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

In order to meet the client's requirements and ensure fast and efficient installation, GSOL supplied a pre-assembled containerized solar system from our workshop in Denmark and when the ...

Windhoek, the capital of Namibia, faces growing energy demands driven by urbanization and industrial expansion. The Sykvo container substation has emerged as a cost-effective solution ...

Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't ...

Think of it like a camel's hump for electricity - storing solar "nutrition" during the day to sustain cities through the cold desert nights. The system's 92% round-trip efficiency ...

It is a versatile but complex product that will allow various functions of implementation; be it to increase a mini-substation's capacity, perform as a simple UPS unit or as an integrated off-grid ...

Specializing in renewable energy integration since 2008, we deliver turnkey solar pumping systems for agricultural, industrial, and municipal applications. Our ISO 9001-certified ...

NamPower is currently developing the Rosh Pinah 100MW and Omburu 80MW Solar PV Project to be connected at Obib Substation near Rosh Pinah and Omburu substation ...

Enter the Omburu Solar Plant--Windhoek's 20MW game-changer. Completed in 2022, this photovoltaic marvel powers 16,000 homes. But here's the kicker: battery storage systems now ...
