JA Solar has been chosen as a preferred supplier for an ambitious clean energy initiative -- the world's largest photovoltaic (PV) and energy storage project.

The Emirati state-owned renewables developer Masdar has begun construction on a giant solar-plus-storage project in Abu Dhabi.

China has commissioned the world's largest open-sea offshore solar power plant, bringing a 1-gigawatt (GW) photovoltaic (PV) installation fully online off the coast of Dongying ...

These projects aren't mere backups; they're the enablers of 24/7 clean energy, combating intermittency from solar and wind while bolstering energy security amid rising ...

As a pioneer in the clean energy industry, Masdar has long been committed to advancing the development and deployment of photovoltaic, wind, geothermal, energy ...

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7.

Recently, the world's largest photovoltaic (PV) and energy storage project was awarded to a consortium including several Chinese companies. The USD6 billion project in ...

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been ...

Announced during Abu Dhabi Sustainability Week (ADSW), the gigascale project will combine 5.2GW of solar PV capacity with a 19GWh battery storage facility to deliver 1GW ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is ...
